

Approved minutes

40 Gb/s and 100 Gb/s Fiber Optic TF SMF Ad Hoc Teleconference 5 Feb 2013

Minutes taken by Pete Anslow, Ciena

The meeting started at 8:00 am Pacific chaired by Pete Anslow, the attendee list was taken from the Webex attendee list.

Documentation for the call can be found at the Ad Hoc web page:

<http://www.ieee802.org/3/bm/public/smfadhoc/meetings/index.html>

Pete reminded everyone of the IEEE patent policy (<http://www.ieee802.org/3/patent.html>) and asked if anyone was unfamiliar with it. No one responded.

Pete asked if anyone had any corrections to the draft minutes from the 8 January 2013 call. No one responded, so these minutes are approved by the Ad Hoc.

Pete asked if anyone had any objection to the draft agenda sent to the group reflector on 5 February. There were no objections.

Presentation #1

Title: SMF Straw Polls

By: Dan Dove, AppliedMicro

See [dove_01_0213_smf](#)

During the discussion of [dove_01_0213_smf](#) Dan was asked how the percentages on his charts were calculated. He responded that the denominator for the calculation was the room count.

Pete reminded the group that a consensus view as to how to satisfy the 500m SMF objective will be required very soon if the adopted Task Force timeline is going to be met.

Pete offered future SMF Ad Hoc call opportunities of 12 Feb, 19 Feb and 5 Mar. It was agreed that in view of the desire for further SMF meetings expressed in the straw polls in Phoenix, he would set up meetings for all three opportunities and cancel them if no presentations are requested.

The meeting closed at 09:06 am Pacific.
