

Approved minutes

40 Gb/s and 100 Gb/s Fiber Optic TF SMF Ad Hoc Teleconference 18 June 2013

Minutes taken by Pete Anslow, Ciena

The meeting started at 8:01 am Pacific chaired by Pete Anslow, the attendee list was taken from the Webex attendee list.

Documentation for the call can be found at the Ad Hoc web page:

<http://www.ieee802.org/3/bm/public/smfadhoc/meetings/index.html>

Pete reminded everyone of the IEEE patent policy (<http://www.ieee802.org/3/patent.html>) and asked if anyone was unfamiliar with it. No one responded.

Pete asked if anyone had any corrections to the draft minutes from the 11 June 2013 call. No one responded, so these minutes are approved by the Ad Hoc.

Pete asked if anyone had any objection to the revised draft agenda sent to the group reflector on 18 June. There were no objections.

Presentation #1

Title: 40GBASE-ER4 proposed revision to receive power max spec

By: Jonathan King, Finisar

See king_02_0613_smf

This was a revised version of the presentation from the call on 11 June. In response to questions, Jonathan said he will submit a comment proposing to make these changes.

Presentation #2

Title: SMF PMD naming

By: Pete Anslow, Ciena

See anslow_01_0613_smf

During the presentation, it was pointed out that D was another good possibility (for data centre or Roman numeral D (500)). As a consequence, a revised version of the presentation will be posted on the SMF Ad Hoc web page.

After the presentation, a straw poll was taken as to what letter was preferred by the participants. The result was:

D: 6 M: 7 V: 1

Presentation #3

Title: SMF Link Costs over Time

By: Brian Welch, Luxtera

See welch_02_0613_smf

This was also a revised version of the presentation from the call on 11 June.

Pete reminded the group that there is one more normal SMF Ad Hoc slot on 26 June and, if necessary, another on 2 July which would have to be coordinated with the end of the SG15 Q6 meeting. He again urged the proponents of the various SMF proposals to make good use of the remaining SMF Ad Hoc opportunities since the meeting time in Geneva will have to be shared between presentations and comment resolution for D 1.0.

The meeting closed at 8:32 am Pacific.

Attendee list (taken from Webex attendee list)

Pete Anslow, Ciena	Michael Ressler, Hitachi Cable
Dave Brown, Semtech	Sam Sambasiavn, AT&T
Derek Cassidy, BT	Tek-Ming Shen, Huawei
David Chalupsky, Intel	Jeff Slavick, Avago Technologies
Dan Dove, Applied Micro	Dan Sparacin, Aurrion
Ali Ghiasi, Broadcom	Tomoo Takahara, Fujitsu
Mark Gustlin, Xilinx	Toshiki Tanaka, Fujitsu
Adam Healey, LSI Corporation	Brian Teipen, Adva
Hideki Isono, Fujitsu	Steve Trowbridge, Alcatel-Lucent
Jonathan King, Finisar	Mike Tryson, TE Connectivity
Keisuke Kojima, Mitsubishi Electric	Alan Ugolini, US Conec
Richard Miller, TE Connectivity	Tim Warland, Applied Micro
Dale Murray, LightCounting	Brian Welch, Luxtera
Tom Palkert, Xilinx, Luxtera, Molex	CK Wong, FCI
John Petrilla, Avago Technologies	Yu Xu, Huawei
Rick Rabinovich, Alcatel-Lucent
