

Chinese Evaluation Criteria Ad Hoc – Minutes April 3, 2013

Provided the IEEE-SA Patent Policy link.

- <https://development.standards.ieee.org/myproject/Public/mytools/mob/slideset.pdf>

Everyone on the call was familiar with the IEEE patent policy.

A call for patents was made, no responses were received.

Discussion

We mainly discussed two issues:

- Present to Chinese MSOs the achievements of the last IEEE 802.3bn meeting in Orlando.
- Channel data for Chinese MDUs.

Generally, Chinese MSOs were a bit depressed on EPOC standard process, and suspected the EPOC TDD future.

It was proposed to do further measurement on channel data. Mr. Yao volunteered to do additional testing on one MSO network.

Some participants thought that the Chinese MSOs interests on cable access technologies are quite scattered. There was a suggestion that Chinese MSOs should do further study on technical issues, and hope to have deep discussion on next Chinese ad hoc meeting.

We will have next conference call on April 24th 10:00-12:00AM CST

Attendance

Person	Affiliation
Xiaojun Gao	Jiangsu Province Cable Network Company
Yong Yao	CRTA
Wu Guangsheng	Huawei Technologies Inc
Wang Zhao	Entropic
Keqing Nie	MStar Semiconductor, Inc.,
Chengwei Wang	Cortina
Lei Xu	Lootom Telcoveideo
Miles Ma	Huawei Technologies Inc
Jeff Cheng	Qualcomm
Dong Liang	Henan Province Cable Network Company
WenZhao Lin	Gehua Cable
Luke Zhang	Broadcom
Zhao Nie	Shannxi Province Broadcast Cable TV Network Company
Naihui Jin	CRTA
Lixia Deng	Peking University

Yuping Zhao	Peking University
Tong Qu	Cisco
Jingfei Yu	Technicolor
