

P802.3bn EPoC Work Item and Socialization conference call – Minutes
Wednesday, June 4, 2014

Meeting opened: 10:07 am pacific

Meeting closed: 10:45 am pacific

IEEE-SA Call for potentially essential patents. Refer to:

- <https://development.standards.ieee.org/myproject/Public/mytools/mob/slideset.pdf>
- Response to call: no response to call

Presentation / Discussion Items

- Avi Kliger (Mark Laubach presenter)
 - [Update on EPoC Upstream Pilot Proposal](#)
 - Conference call questions and feedback included in above posting.
 - Chair: please continue question resolution in email if possible
- Duane Remein reports that a coarse look at time to bring up 64 CNU's will not require changing the PHY Link frame structure at this time. Will keep the same as in draft.
