Liaison to IEEE 802.3 on ffs in class I/class II channel specification above 1 600 MHz

Dear Mr Law,

Following the September 2014 meeting of ISO/IEC JTC1/SC 25/WG 3, we are pleased to inform you that the requirements for the Class I and Class II channels being defined by ISO/IEC 11801-1 3rd edition are now normative up to 2 GHz.

Our requirements are still under development.

Later this year, a 2<sup>nd</sup> Working Draft will be produced for commenting by our experts with a view to have a Committee Draft available after our spring 2015 meeting.

Sincerely,

Prof. Dr. Albrecht Oehler

Convenor ISO/IEC JTC 1/SC 25 WG 3
