IsMisaligned(eq)

The *IsMisaligned(eq)* function returns true if the parameter *eq* is misaligned, i.e., shifted by half- EQ.

```
bool IsMisaligned(EQ eq)
{
    return ( eq<7:0> == 0xF8 AND
             eq<39:8> == 0x0A0A0A0A AND // 1st Transfer: IBI_EQ
             eq<47:40> == 0xFB );       // 2nd Transfer: Env. Header
}
```
