

Agenda and General Information

IEEE P802.3cy Beyond 10 Gb/s Electrical Automotive
Ethernet PHYs Task Force

Steve Carlson, Chair

High Speed Design, Inc., Robert Bosch, Ethernovia

July 22, 2020 teleconference 14h00-16h00 UTC

Agenda

- Jon Lewis, Task Force Recording Secretary
- Welcome
- Approve Agenda
- Goals for this meeting
- Task Force Organization
- Reflector and Web
- Ground Rules
- IEEE
 - Structure, Bylaws and Rules
 - Call for Patents
 - IEEE Standards Process
- Virtual Meetings
- Presentations
- Motions and Closing Business

Task Force Decorum

- **Please MUTE if you are not speaking**
- An officer is permitted to make an audio or slideshow recording of this meeting exclusively for the purpose of generating minutes which shall not be copied or distributed. **IEEE 802.3 meetings do not use this option.** Recording of the proceedings by any other participant or observer, in part or in whole, via any means, is prohibited. (January 2020 IEEE-SA Standards Board Ops Manual 5.3.3.2)
- Press (i.e., anyone reporting publicly on this meeting) are to announce their presence (January 2020 IEEE-SA Standards Board Ops Manual 5.3.3.3)
- Please observe proper decorum in meetings

Task Force Organization

- Task Force Organization
 - Steve Carlson, Chair
 - Marek Hajduczenia, Chief Editor
 - Natalie Wienckowski, Ad hoc Chair

Goals for the meeting

- Confirm Task Force leadership
- Review IEEE Patent, Copyright, and Individual Participation policies
- Review IEEE 802.3 Task Force operation
- Virtual Meetings
- IEEE 802 virtual plenary policy (meetings and attendance credit)
- Presentations

Reflector and Web

- To subscribe to the IEEE P802.3cy Beyond 10 Gb/s Electrical Automotive Ethernet PHYs Task Force reflector, send an email to:

ListServ@ieee.org

with the following in the body of the message (do not include “<>”):

subscribe stds-802-3-B10GAUTO<yourfirstname> <yourlastname>
end

- Send B10GAUTO reflector messages to:

stds-802-3-B10GAUTO@listserv.ieee.org

- Task Force web page URL:

<http://ieee802.org/3/cy/index.html>

Task Force Private Area

- URL: No private area as yet
 - Username:
 - Password:
- Write it down...
- Note - The draft, and any other content, is posted for your review only, and neither the content nor access information should be copied or redistributed to others in violation of document copyrights.

Ground Rules

- Based upon IEEE 802.3 Rules
 - Foundation based upon Robert's Rules of Order
 - Anyone in the room may speak
 - Anyone in the room may vote
- **RESPECT**... give it, get it
- NO product pitches
- NO corporate pitches
- NO prices!!!
 - This includes costs, ASPs, etc. no matter what the currency
- NO restrictive notices

Attendance

- Tutorial Material on attendance tool
 - http://ieee802.org/3/minutes/attendance_procedures.pdf
- Access details
 - URL: <http://imat.ieee.org/>
 - (For interim) none for plenary

IEEE Structure

Important Bylaws and Rules

- **IEEE-SA Operations Manual**
http://standards.ieee.org/develop/policies/sa_opman/
- **IEEE-SA Standards Board Bylaws**
<http://standards.ieee.org/develop/policies/bylaws/>
- **IEEE-SA Standards Board Operations Manual**
<http://standards.ieee.org/develop/policies/opman/>
- **IEEE 802 LAN/MAN Standards Committee (LMSC) Policies and Procedures**
<https://ieee.app.box.com/v/PandP-LMSC>
- **IEEE 802 LAN/MAN Standards Committee (LMSC) Operations Manual**
<http://www.ieee802.org/devdocs.shtml>
- **IEEE 802 LAN/MAN Standards Committee (LMSC) Working Group (WG) Policies and Procedures**
<http://www.ieee802.org/devdocs.shtml>
- **IEEE 802.3 Working Group Operating Rules**
http://ieee802.org/3/rules/P802_3_rules.pdf

Instructions for the WG Chair

The IEEE-SA strongly recommends that at each WG meeting the chair or a designee:

- **Show slides #1 through #4 of this presentation**
- **Advise the WG attendees that:**
 - IEEE's patent policy is described in Clause 6 of the *IEEE-SA Standards Board Bylaws*;
 - Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;
 - There may be Essential Patent Claims of which IEEE is not aware. Additionally, neither IEEE, the WG, nor the WG Chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.
- **Instruct the WG Secretary to record in the minutes of the relevant WG meeting:**
 - That the foregoing information was provided and that slides 1 through 4 (and this slide 0, if applicable) were shown;
 - That the chair or designee provided an opportunity for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim(s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard
 - Any responses that were given, specifically the patent claim(s)/patent application claim(s) and/or the holder of the patent claim(s)/patent application claim(s) that were identified (if any) and by whom.
- The WG Chair shall ensure that a request is made to any identified holders of potential essential patent claim(s) to complete and submit a Letter of Assurance.
- It is recommended that the WG Chair review the guidance in *IEEE-SA Standards Board Operations Manual* 6.3.5 and in FAQs 14 and 15 on inclusion of potential Essential Patent Claims by incorporation or by reference.

Note: **WG** includes Working Groups, Task Groups, and other standards-developing committees with a PAR approved by the IEEE-SA Standards Board.

Participants have a duty to inform the IEEE

- Participants **shall** inform the IEEE (or cause the IEEE to be informed) of the identity of each holder of any potential Essential Patent Claims of which they are personally aware if the claims are owned or controlled by the participant or the entity the participant is from, employed by, or otherwise represents
- Participants **should** inform the IEEE (or cause the IEEE to be informed) of the identity of any other holders of potential Essential Patent Claims

**Early identification of holders of potential
Essential Patent Claims is encouraged**

Ways to inform IEEE

- Cause an LOA to be submitted to the IEEE-SA (patcom@ieee.org); or
- Provide the chair of this group with the identity of the holder(s) of any and all such claims as soon as possible; or
- **Speak up now and respond to this Call for Potentially Essential Patents**

If anyone in this meeting is personally aware of the holder of any patent claims that are potentially essential to implementation of the proposed standard(s) under consideration by this group and that are not already the subject of an Accepted Letter of Assurance, please respond at this time by providing relevant information to the WG Chair

Other guidelines for IEEE WG meetings

- All IEEE-SA standards meetings shall be conducted in compliance with all applicable laws, including antitrust and competition laws.
 - Don't discuss the interpretation, validity, or essentiality of patents/patent claims.
 - Don't discuss specific license rates, terms, or conditions.
 - Relative costs of different technical approaches that include relative costs of patent licensing terms may be discussed in standards development meetings.
 - Technical considerations remain the primary focus
 - Don't discuss or engage in the fixing of product prices, allocation of customers, or division of sales markets.
 - Don't discuss the status or substance of ongoing or threatened litigation.
 - Don't be silent if inappropriate topics are discussed ... do formally object.

For more details, see *IEEE-SA Standards Board Operations Manual*, clause 5.3.10 and *Antitrust and Competition Policy: What You Need to Know* at <http://standards.ieee.org/develop/policies/antitrust.pdf>

Patent-related information

The patent policy and the procedures used to execute that policy are documented in the:

- **IEEE-SA Standards Board Bylaws**
(<http://standards.ieee.org/develop/policies/bylaws/sect6-7.html#6>)
- **IEEE-SA Standards Board Operations Manual**
(<http://standards.ieee.org/develop/policies/opman/sect6.html#6.3>)

Material about the patent policy is available at
<http://standards.ieee.org/about/sasb/patcom/materials.html>

**If you have questions, contact the IEEE-SA
Standards Board Patent Committee
Administrator at patcom@ieee.org**

INSTRUCTIONS FOR CHAIRS OF STANDARDS DEVELOPMENT ACTIVITIES

At the beginning of each standards development meeting the chair or a designee is to:

- Show the following slides (or provide them beforehand)
- Advise the standards development group participants that:
- IEEE SA's copyright policy is described in Clause 7 of the IEEE SA Standards Board Bylaws and Clause 6.1 of the IEEE SA Standards Board Operations Manual;
- Any material submitted during standards development, whether verbal, recorded, or in written form, is a Contribution and shall comply with the IEEE SA Copyright Policy;
- Instruct the Secretary to record in the minutes of the relevant meeting:
- That the foregoing information was provided and that the copyright slides were shown (or provided beforehand).

IEEE SA COPYRIGHT POLICY

By participating in this activity, you agree to comply with the IEEE Code of Ethics, all applicable laws, and all IEEE policies and procedures including, but not limited to, the IEEE SA Copyright Policy.

- Previously Published material (copyright assertion indicated) shall not be presented/submitted to the Working Group nor incorporated into a Working Group draft unless permission is granted.
- Prior to presentation or submission, you shall notify the Working Group Chair of previously Published material and should assist the Chair in obtaining copyright permission acceptable to IEEE SA.
- For material that is not previously Published, IEEE is automatically granted a license to use any material that is presented or submitted.

IEEE SA COPYRIGHT POLICY

- The IEEE SA Copyright Policy is described in the IEEE SA Standards Board Bylaws and IEEE SA Standards Board Operations Manual

- IEEE SA Copyright Policy, see
Clause 7 of the IEEE SA Standards Board Bylaws
<https://standards.ieee.org/about/policies/bylaws/sect6-7.html#7>
Clause 6.1 of the IEEE SA Standards Board Operations Manual
<https://standards.ieee.org/about/policies/opman/sect6.html>

- IEEE SA Copyright Permission

- <https://standards.ieee.org/content/dam/ieee-standards/standards/web/documents/other/permissionltrs.zip>

- IEEE SA Copyright FAQs

- <http://standards.ieee.org/faqs/copyrights.html/>

- IEEE SA Best Practices for IEEE Standards Development

- http://standards.ieee.org/develop/policies/best_practices_for_ieee_standards_development_051215.pdf

- Distribution of Draft Standards (see 6.1.3 of the SASB Operations Manual)

- <https://standards.ieee.org/about/policies/opman/sect6.html>

Participant behavior in IEEE-SA activities is guided by the IEEE Codes of Ethics & Conduct

- All participants in IEEE-SA activities are expected to adhere to the core principles underlying the:
 - [IEEE Code of Ethics](#)
 - [IEEE Code of Conduct](#)
- The core principles of the IEEE Codes of Ethics & Conduct are to:
 - *Uphold the highest standards of integrity, responsible behavior, and ethical and professional conduct*
 - *Treat people fairly and with respect, to not engage in harassment, discrimination, or retaliation, and to protect people's privacy.*
 - *Avoid injuring others, their property, reputation, or employment by false or malicious action*
- The most recent versions of these Codes are available at <http://www.ieee.org/about/corporate/governance>

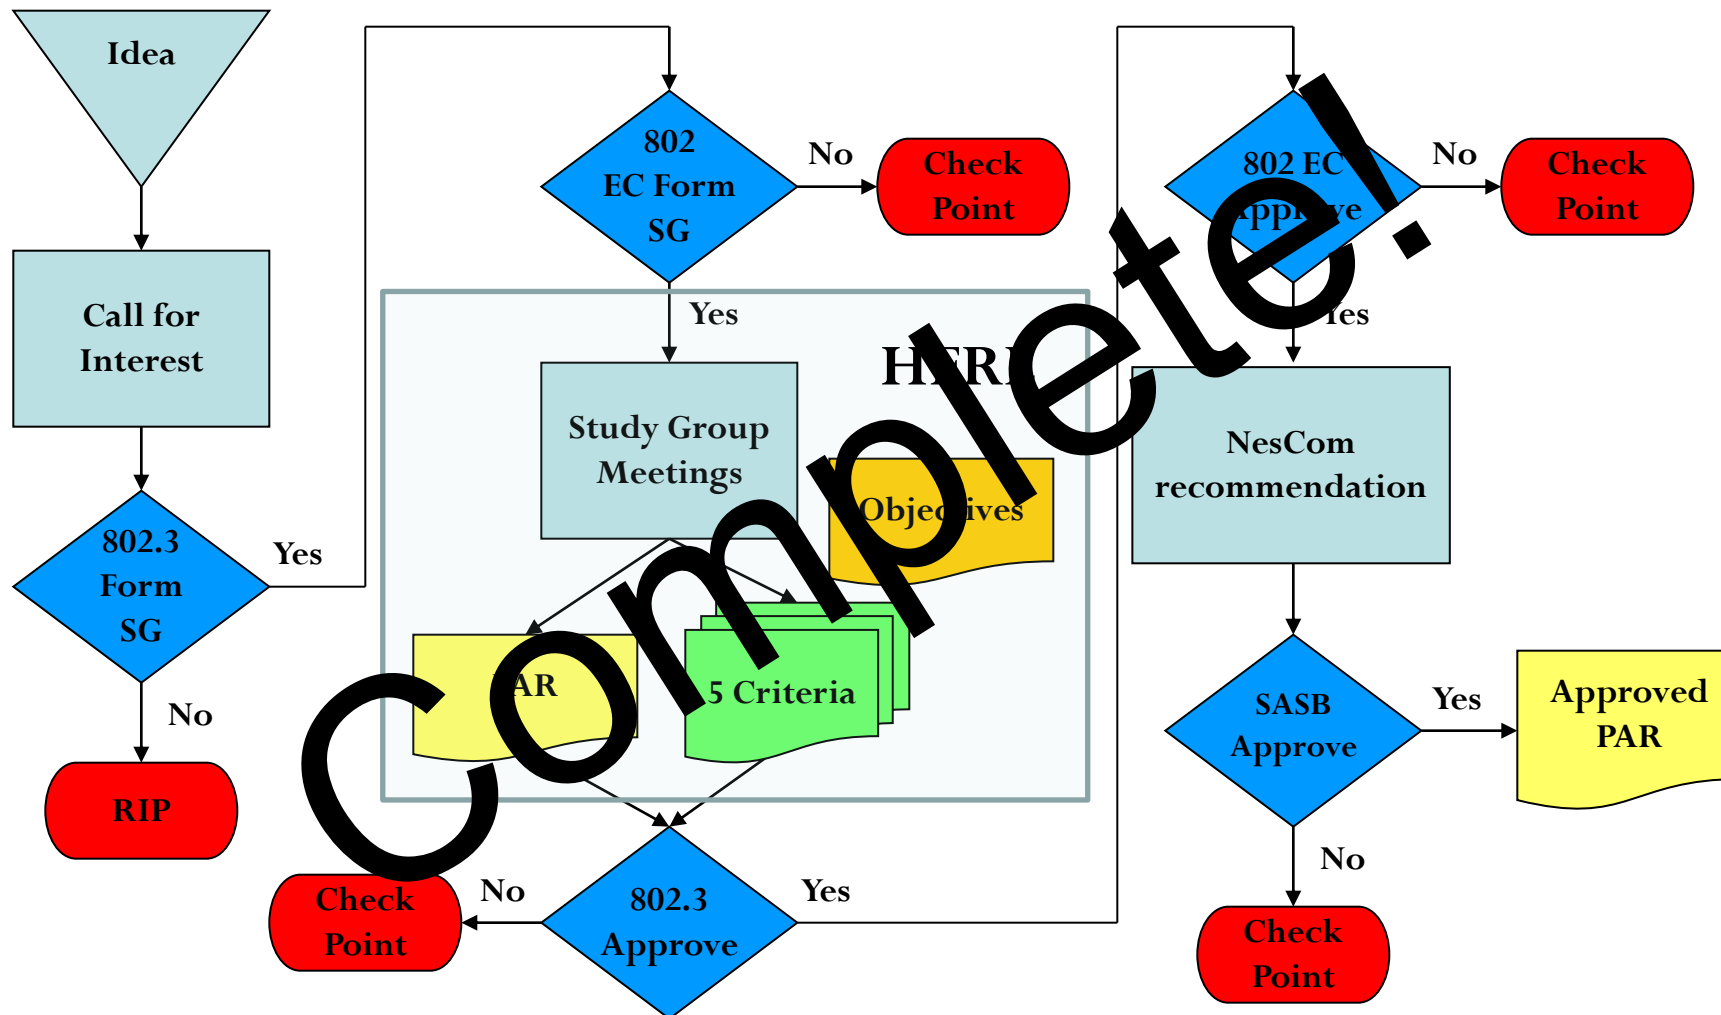

Participants in the IEEE-SA “*individual process*” shall act independently of others, including employers

- The [IEEE-SA Standards Board Bylaws](#) require that “*participants in the IEEE standards development individual process shall act based on their qualifications and experience*”
- This means participants:
 - **Shall act & vote** based on their personal & independent opinions derived from their expertise, knowledge, and qualifications
 - **Shall not act or vote** based on any obligation to or any direction from any other person or organization, including an employer or client, regardless of any external commitments, agreements, contracts, or orders
 - **Shall not direct** the actions or votes of other participants or retaliate against other participants for fulfilling their responsibility to act & vote based on their personal & independently developed opinions
- By participating in standards activities using the “*individual process*”, you are deemed to accept these requirements; if you are unable to satisfy these requirements then you shall immediately cease any participation

IEEE-SA standards activities shall allow the fair & equitable consideration of all viewpoints

- The [IEEE-SA Standards Board Bylaws](#) (clause 5.2.1.3) specifies that “*the standards development process shall not be dominated by any single interest category, individual, or organization*”
 - This means no participant may exercise “*authority, leadership, or influence by reason of superior leverage, strength, or representation to the exclusion of fair and equitable consideration of other viewpoints*” or “*to hinder the progress of the standards development activity*”
- This rule applies equally to those participating in a standards development project and to that project’s leadership group
- Any person who reasonably suspects that dominance is occurring in a standards development project is encouraged to bring the issue to the attention of the Standards Committee or the project’s IEEE-SA Program Manager

Overview of IEEE 802.3 Standards Process (1/5)- Study Group Phase

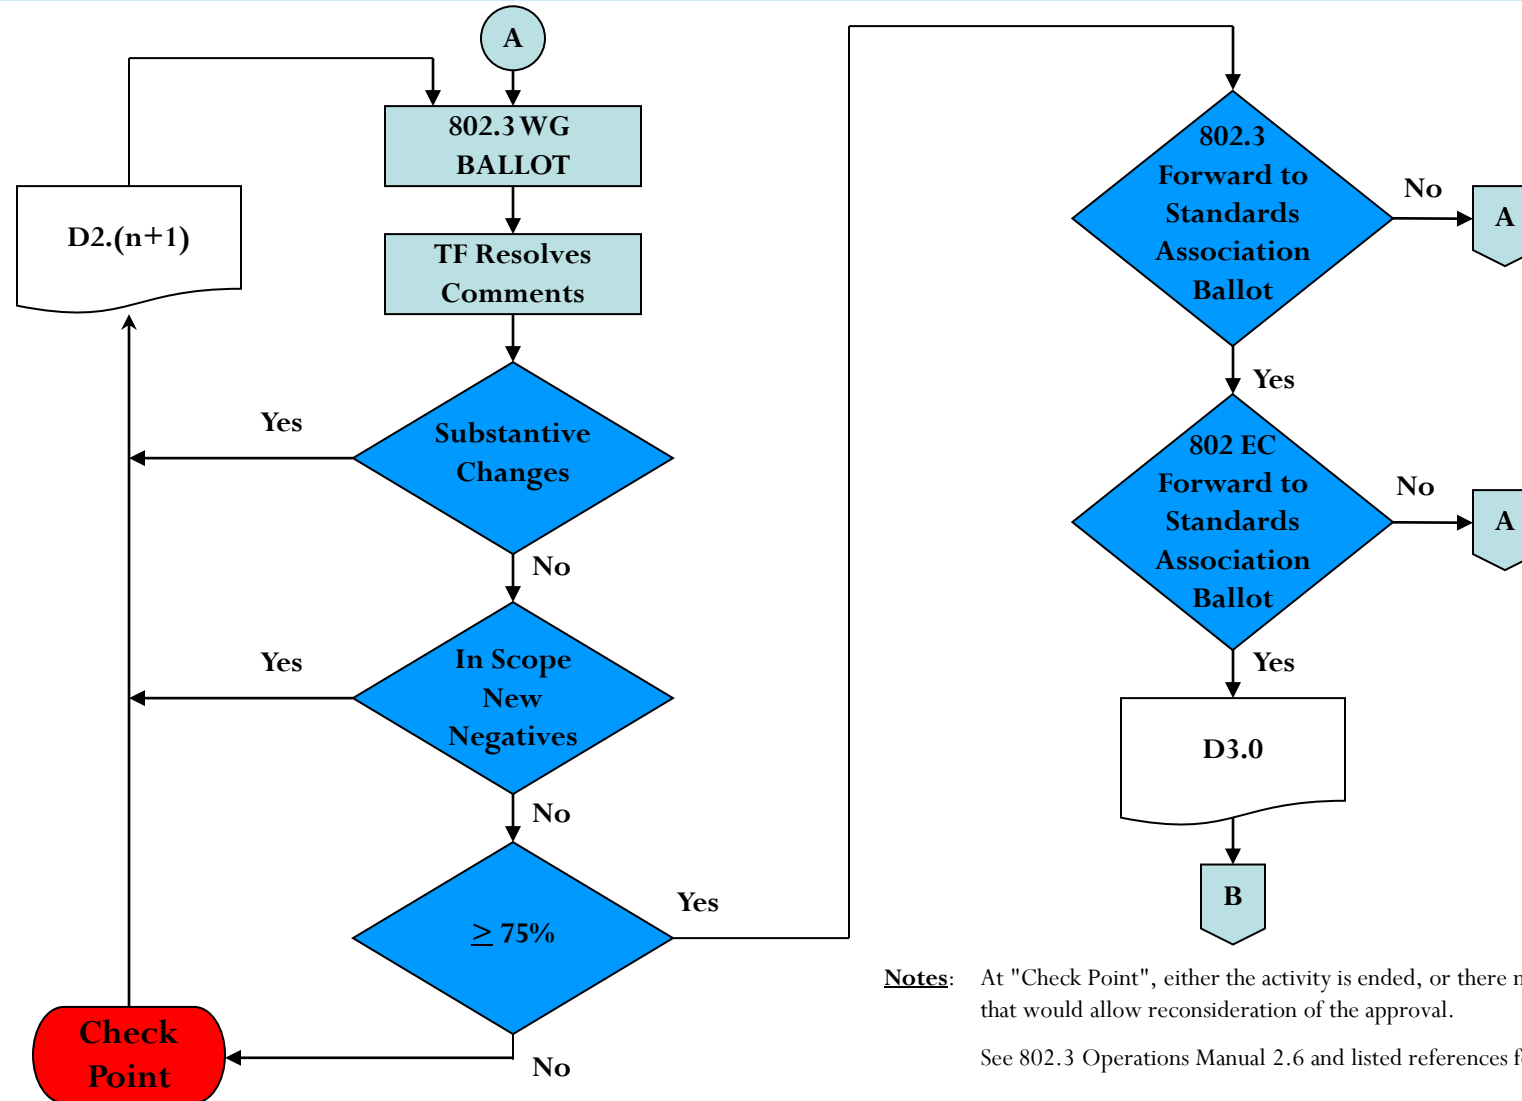

Note: At "Check Point", either the activity is ended, or there may be various options that would allow reconsideration of the approval.

Overview of IEEE 802.3 Standards Process (2/5) – Task Force Comment Phase

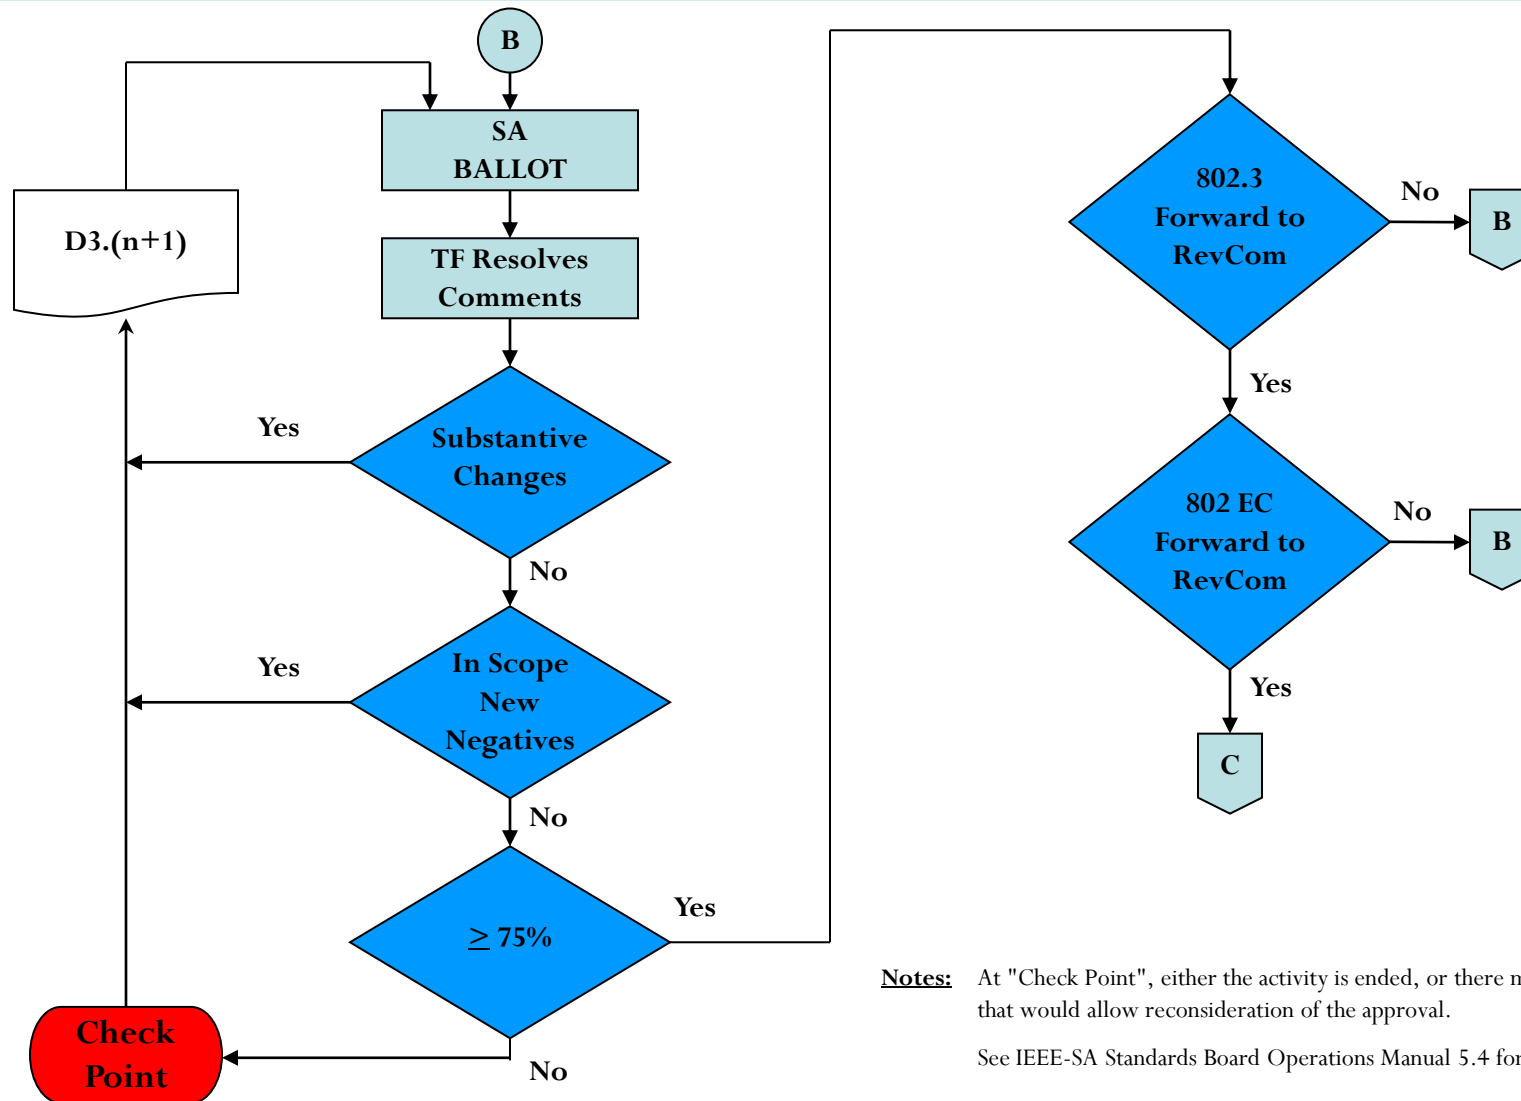

Overview of IEEE 802.3 Standards Process (3/5) – Working Group Ballot Phase

Notes: At "Check Point", either the activity is ended, or there may be various options that would allow reconsideration of the approval.

See 802.3 Operations Manual 2.6 and listed references for complete description

Overview of IEEE 802.3 Standards Process (4/5)- IEEE Standards Association (SA) Ballot Phase

Notes: At "Check Point", either the activity is ended, or there may be various options that would allow reconsideration of the approval.

See IEEE-SA Standards Board Operations Manual 5.4 for complete description

Overview of IEEE 802.3 Standards Process (5/5) – Final Approvals / Standard Release

Notes: At "Check Point", either the activity is ended, or there may be various options that would allow resubmission for approval.

Liaisons and Communications

- None at this time

Action Items

- This is where the “To Do list items will be posted

IEEE P802.3cy Beyond 10 Gb/s Electrical Automotive Ethernet PHYs Approved Project Documents

- PAR
 - http://grouper.ieee.org/groups/802/3/cy/P802d3cy_PAR.pdf
 - 5 Criteria
 - <https://mentor.ieee.org/802-ec/dcn/20/ec-20-0094-00-ACSD-p802-3cy.pdf>
 - Objectives
 - http://grouper.ieee.org/groups/802/3/cy/P802d3cy_OBJ_WG_0520.pdf

Approved Objectives P802.3cy

Preserve the IEEE 802.3/Ethernet frame format at the MAC client service interface

Preserve minimum and maximum frame size of the current IEEE 802.3 standard

Support full duplex operation only

Define optional startup procedure which enables the time from power_on=FALSE to a state capable of transmitting and receiving valid data to be less than 100ms

Support a BER better than or equal to 10^{-12} at the MAC/PLS service interface (or the frame loss ratio equivalent)

Support a data rate of 25 Gb/s, 50 Gb/s and 100 Gb/s at the MAC/PLS service interface

Support optional Auto-Negotiation

Support optional Energy Efficient Ethernet optimized for automotive applications

Support operation in automotive environments (e.g., EMC, temperature)

Do not preclude meeting FCC and CISPR EMC requirements

Approved Objectives P802.3cy

Define the performance characteristics of an automotive link segment and an electrical PHY to support 25 Gb/s point-to-point operation over this link segment supporting up to 2 inline connectors for at least 11 m on at least one type of automotive cabling

Define the performance characteristics of an automotive link segment and an electrical PHY to support 50 Gb/s point-to-point operation over this link segment supporting up to 2 inline connectors for at least 11 m on at least one type of automotive cabling

Define the performance characteristics of an automotive link segment and an electrical PHY to support 100 Gb/s point-to-point operation over this link segment supporting up to 2 inline connectors for at least 11 m on at least one type of automotive cabling

Support optional Clause 104 power over data lines on appropriate media

IEEE P802.3cy B10GAUTO Timeline

- Projects create timelines to completion to aid in managing the project
- Timelines are usually created early in the TF process
- The current global pandemic has made it more difficult for IEEE 802.3 to do our work
- It may take several meetings before we are able to create a draft timeline

Task Force Virtual Meetings

- For the foreseeable future, P802.3cy meetings will be virtual 2-hour teleconferences (14h00-16h00 UTC)
- There is contention for timeslots with other IEEE 802.3 groups
- It's not clear when in-person IEEE 802.3 meetings will resume
- It's not clear how future virtual IEEE 802 plenaries will be structured
- For IEEE 802.3, our current rules allow interim telecon meetings with 10-day advance notice
 - Decisions (votes) may be taken
 - Only IEEE 802.3 voting members may vote
 - There is considerable overhead for a virtual interim
 - Interims can't be cancelled

Task Force Virtual Meetings

- Teleconference ad hoc meetings have been used for many years in IEEE 802,3 to build consensus
 - We are working out how to move the project along with a combination of ad hocs and interims
 - The current concept will schedule ad hocs on a bi-weekly basis (as was done in 802.3ch)
 - Presentations will be to build consensus and further discussion (use the email reflector!)
 - If your presentation will lead to a baseline proposal, let us know what it might be in the slides
 - This prepares the groundwork for a vote at an interim or plenary telecon
 - No votes taken on ad hoc calls
 - Ad hocs may be canceled without penalty

Task Force Virtual Meetings

- The current plan will schedule interims on a 4-week or greater schedule
 - Interims and plenaries will be used to vote on baselines
 - No votes will be allowed unless the baseline motion has been previewed at least two weeks prior to the interim/plenary meeting
- We'll see how this works and make changes as we gain experience

Virtual Plenary Policies

- Based on <<http://ieee802.org/secmail/msg24772.html>> IEEE 802.3 will hold the July 2020 plenary session telephonically from Monday 13th July through Thursday 23th July 2020. The IEEE 802.3 Working Group (WG) opening plenary meeting will be held from 14h00 UTC (07h00 PDT, 08h00 MDT, 09h00 CDT, 10h00 EDT, 15h00 BST, 16h00 CEST, 19h30 IST, 22h00 CST, 23h00 JST) to 16h00 UTC on Monday 13th July, the IEEE 802.3 WG closing plenary meeting will be held from 14h00 UTC to 16h00 UTC on Thursday 23th July.
- Task Force, standing committee and any appropriate ad hoc teleconference meetings will be held from Tuesday 14th July 2020 UTC through Wednesday 22nd July 2020 UTC, excluding Friday 17th July 2020 UTC through Sunday 19th July 2020 UTC. The draft agenda, as well as liaison letters received so far, are available in the minutes area <<http://www.ieee802.org/3/minutes/jul20/index.html>> and will be updated as required prior to the meeting. The agenda will be approved at the meeting.

Virtual Plenary Policies

- **Attendance credit toward membership requires at least 75% attendance during the plenary session. As a result you will need to record attendance at a meeting on at least six of the eight meeting days of the July 2020 IEEE 802.3 plenary session, independent of how long a particular subgroup might be meeting.**
- A number of WG decisions are expected during the IEEE 802.3 meetings (most on Thursday during the closing meeting). Depending on the amount of discussions, the Monday opening and Thursday closing meeting may run beyond our target 16h00 UTC end time, so please plan your time accordingly.

P802.3cy Plenary Meetings

- See: <http://www.ieee802.org/3/interims/index.html>
- IEEE 802.3 meetings calendar:
<http://www.ieee802.org/3/calendar.html>
- July 2020 Virtual Plenary
 - IEEE P802.3cy – Wednesday July 15 14h00-16h00 UTC
 - IEEE P802.3cy – Wednesday July 22 14h00-16h00 UTC

Presentations

IEEE Process		
802.3 draft development process	Marek Hajduczenia	Charter Communications
P802.3cy Ad Hoc Meetings	Natalie Wienckowski	General Motors (July 15)
P802.3cy To-do list usage	Natalie Wienckowski	General Motors
	General – Industry Needs	
Considerations for a Multi-Speed Standard	George Zimmerman	CME Consulting, Marvell (July 15)
Network architecture use cases for data rates beyond 10Gb/s	Amir Bar-Niv Ragnar Jonsson	Marvell
Link Segment		
Evaluation of channel micro reflections (01a)	Ragnar Jonsson Ramin Farjadrad	Marvell (July 15)
Link Segment Measurements	Natalie Wienckowski	General Motors

Note –Times listed are subject to change.

Future Meetings

See [P802.3cy Ad Hoc Meetings](#) for upcoming teleconference details

See <http://www.ieee802.org/3/calendar.html>

Note –Times listed are subject to change.
