| Subject: | Liaison response on coordination on IM/DM for OAM | |
| Approval: | Agreed to at IEEE 802.3 interim meeting, Geneva, Switzerland, 25th January 2018 | |

Dear Mr. Trowbridge,

Thank you very much for your communication.

We appreciate your update of your progress on generation of IM/DM for OAM. We also thank you for your invitation to your ITU-T Q14/15 interim meeting on 28th January 2018 (in Geneva after the IEEE/ITU-T joint workshop).

We would like to inform you that the IEEE P802.3.2 (P802.3cf) project is working on a YANG module for Ethernet Link OAM. The latest code for YANG models is available on github at the URL: <https://github.com/YangModels/yang/tree/master/standard/ieee/802.3/draft>. We appreciate your review and your comments will be considered.

[1] This document solely represents the views of the IEEE 802.3 Working Group, and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

We look forward to coordinating the development of YANG models for Ethernet Link OAM.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
