Proposed Rules Revision 1-03/03

Proposed revision

In subclause '4.4.1 Study Group Meetings', replace the current text which reads:

These do not count towards 802.3 WG voting rights.

with:

Participation at a duly constituted Study Group meeting during a Working Group Plenary meeting will count towards the 75% presence at a Working Group meeting. All other Study Group meetings do not count towards 802.3 WG voting rights.

Proposed Rules Revision 1-03/03

Rational for Proposed Rules Revision

During a plenary meeting you should be able to attend a study group meeting and that attendance should still count toward being present at a plenary meeting since these meetings are held during normal task group times. Since the study group is of limited duration, may or may not result in a task group, and does not have to be co-located with an interim task group meeting; interim or adjunct meetings need not count. This should not require a change in the IEEE 802 operating rules.
