Subject: Reply to LS on new work item for draft new Recommendation ITU-T J.HiNoC3-REQ "Functional requirements for High performance Network over Coax 3.0"

Approval: Agreed to at IEEE 802.3 plenary teleconference meeting, 22nd July 2021

Dear Mr Kim,

The IEEE 802.3 Standard for Ethernet Amendment Physical Layer Specifications and Management Parameters for Ethernet Passive Optical Networks Protocol over Coax (IEEE Std 802.3bn-2016) was approved in September 2016. At this time the IEEE 802.3 Ethernet Working Group has no current or proposed future activity for enhancing this work over coax. As such, we do not have a Task Force that could review and generate comments on your work item. Best wishes on the development of your functional requirements.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
