

**July 2015 IEEE 802 PLENARY SESSION  
TUTORIAL SCHEDULE**

ALL SECTIONS OCCUR MONDAY JULY 13, 2015

Please check the current schedule (<http://802world.org/attendee>) for room information.

**SECTION #1**                      **6:30 to 8:00 PM**

**TITLE OF TUTORIAL:**      802.11 as a Component

**NAME OF PRESENTERS, THEIR AFFILIATIONS AND CONTACT INFO:**

<b>Presenter(s) Name:</b>	<b>Affiliation:</b>	<b>Email Address:</b>
Adrian Stephens	Intel Corporation	Adrian.p.stephens@intel.com
Dick Roy	SRA	dickroy@alum.mit.edu
Max Riegel	Nokia Networks	max.riegel@ieee.org

**ABSTRACT:**

At present, there are no standardized “concrete” interfaces that allow an 802.11 STA to be managed. The MIB in 802.11 is not fit for purpose. The value of allowing 802.11 STAs to be effectively managed is increasing, given the goal of increased convergence with heterogonous communications technologies, such as cellular. This tutorial describes an opportunity to improve this situation.

**SECTION #2**                      **8:00 to 9:30 PM**

**TITLE OF TUTORIAL:**      IEEE-SA 2015 Patent Policy Update

**NAME OF PRESENTERS, THEIR AFFILIATIONS AND CONTACT INFO:**

<b>Presenter(s) Name:</b>	<b>Affiliation:</b>	<b>Email Address:</b>
Bruce Kraemer	Marvell Semiconductor Inc	bkraemer@marvell.com
Paul Nikolich	YAS Broadband Ventures LLC, Samsung, Silver Spring Networks, Huawei, Intel, HP	p.nikolich@ieee.org
David Law	Hewlett-Packard Ltd	dlaw@hp.com
Michael Lindsay	Dorsey & Whitney LLP / IEEE	lindsay.michael@dorsey.com

**ABSTRACT:**

Updates to the IEEE-SA Patent Policy (Clause 6 of the IEEE-SA Standards Board Bylaws) became effective on 15<sup>th</sup> March 2015. While the text relating directly to conduct and responsibilities of participants within IEEE standards development groups has not been updated, this tutorial will provide an overview of the areas that were updated.

**SECTION #3**                      **9:30 to 11:00 PM**

**TITLE OF TUTORIAL:**      None
