Date: August 19, 2014

To: Ms. Jooran Lee, (jooran@kisi.or.kr)
        Mr. Dae Young Kim, (dykim@cnu.ac.kr)

CC: Mr. Paul Nikolich, Chair, IEEE 802 LMSC (p.nikolich@ieee.org)
        Mr. Adrian Stephens , IEEE 802.11 Ethernet Working Group (Adrian.P.Stephens@intel.com)
        Mr. Bruce Kraemer, IEEE 802 Head of Delegation to ISO/IEC/JTC1/SC6 (bkraemer@ieee.org)

Subject: IEEE 802 July 2014 Plenary – New Study Groups
From: Mr. John D'Ambrosia, Recording Secretary, IEEE 802 LMSC (jdambrosia@ieee.org)

Dear Ms. Lee, Mr. Kim, and members of SC6 / WG1,

In the spirit of continuing cooperation between IEEE 802 and SC6, the following letter addresses new work items for information and potential coordination with the respective IEEE 802 WG.

One of the first steps in the IEEE Standards Association's standards development process is the creation of a Study Group. Study groups are chartered to create a formal Project Authorization Request (PAR) document that includes a description of the project's scope and purpose.

The following Study Groups were approved at the July 2014 IEEE 802 Plenary –

- IEEE 802.3 25GbE Study Group
- IEEE 802.11 Next Generation 60 GHz (NG60) Formation
- IEEE 802.24 Smart Grid Task Group Formation
- IEEE 802 EC Study Group for a recommended practice on privacy

Further information about these Study Groups may be found at
http://www.ieee802.org/StudyGroups.shtml.

Please note, per the IEEE 802 Policies and Procedures that a Study Group is chartered to operate until the next plenary session, a period of four months and, if it wishes to continue, must request a charter extension. Study Groups may also terminate between plenary sessions if their proposed project is approved by the IEEE Standards Association Standards Board.

Additionally, within the IEEE 802 family of standards, there is a requirement that each new project proposal attaches additional documentation that describes its engineering feasibility, market potential, assurance of coexistence and distinct identity relative to previous standards (referred to as the "CSD" in 802, which also includes the "5 criteria"). The "Criteria for Standards Development (CSD)" used by IEEE 802 can be found in document:

https://mentor.ieee.org/802-ec/dcn/14/ec-14-0028-00-00EC-csd-informative-extract.pdf

Please note that in addition to the formation of these study groups, the IEEE 802.1 Working Group will be drafting a PAR and CSD for an IEEE 802 amendment on Local Address space usage plan and Company ID based local MAC addresses.

Also please note that IEEE meetings are open and may be attended by any individuals who register and fulfill any registration fees. Details regarding future IEEE 802 plenary meeting schedules may be found at http://802world.org/plenary/future-plenary-sessions/.   Please refer to individual working groups for their interim meeting schedules. A listing of all working groups may be found at http://www.ieee802.org/.

Sincerely,

John D'Ambrosia
Recording Secretary, IEEE 802 LMSC
