Re: Historical lists in front matter of IEEE standards

This memo confirms the agreement to include lists of historical participants and working group officers in the front matter of IEEE 802 standards. These lists will be required at the time that the final draft and source files are submitted to the Review Committee (RevCom).

Please note the following:

- 1) As is done for the working group list, the IEEE 802 Working Group will be responsible for the maintenance of the lists of historical participants and officers.
- 2) The lists will be placed after the current participant and Board information. The lists will be preceded by the heading "Historical participants."
- 3) The list of historical participants will be preceded by the following paragraph:

Since the initial publication, many IEEE standards have added functionality or provided updates to material included in this standard. The following is a historical list of participants who have dedicated their valuable time, energy, and knowledge to the creation of this material:

- 4) The list of historical participants (working group members and officers listed in previous IEEE standards that were superseded by the current standard) will contain only the names of the participants in alphabetical order.
- 5) The list of officers will contain the following:
 - a. The designation of each historical standard and, optionally, an indication of which clauses in the current document contain the text of the historical standard
 - b. The approval dates by IEEE and ANSI
 - c. The names of the officers
- 6) The list of officers will be preceded by the following paragraph:

The following individuals served as officers during the development of this standard:

cc: S. Tatiner, K. Kenney, A. Ickowicz, M. D. Turner, J. Longman, IEEE Standards Project Editors
