FAX (+1 732-875-0524) e-mail: patcom@ieee.org No license is implied by submission of this Letter of Assurance A. SUBMITTER: ("Submitter") Legal Name: B. SUBMITTER'S CONTACT INFORMATION (for the purpose of licensing information): Contact Name/Title: Department: \_\_\_\_\_ Address: Telephone: Fax: E-mail: URL: Note: The IEEE does not endorse the content, or confirm the accuracy or consistency of any contact information or web site listed above. C. IEEE STANDARD OR PROJECT (e.g., AMENDMENT, CORRIGENDA, OR REVISION): In accordance with Clause 6 of the IEEE-SA Standards Board Bylaws and Clause 6.3.5 of the IEEE-SA Standards Board Operations Manual, this licensing position is limited to the following: Standard/Project Number: Title: D. SUBMITTER'S POSITION REGARDING LICENSING OF ESSENTIAL PATENT CLAIMS: In accordance with Clause 6 of the IEEE-SA Standards Board Bylaws, the Submitter hereby declares the following (Check box 1 or box 2 below): Note: Nothing in this Letter of Assurance shall be interpreted as giving rise to a duty to conduct a patent search. The IEEE takes no position with respect to the validity or essentiality of Patent Claims, determining whether an implementation is a Compliant Implementation or the reasonableness of rates, terms, and conditions provided in connection with submission of a Letter of Assurance, if any, or in any license agreements offered by the Submitter. To the extent there are inconsistencies between the Letter of Assurance Form and any sample licenses, material licensing terms, or not to exceed rates provided in connection with 1.a. or 1.b. below, the terms of Clause 6 of the <u>IEEE-SA Standards Board Bylaws and this</u> Letter of Assurance Form shall control. 1. The Submitter may own, control, or have the ability to license Patent Claims that might be or become Essential Patent Claims. With respect to such Essential Patent Claims, the Submitter's licensing position is as follows (must check a, b, c, or d and any applicable subordinate boxes): a. The Submitter will grantmake available a license for Essential Patent Claims without compensation to an unrestricted number of applicants Applicants on a worldwide basis with other reasonable terms and conditions that are demonstrably free of unfair discrimination to make, have made, use, sell, offer to sell, or import any Compliant Implementation that practices the Essential Patent Claims for use in conforming with the IEEE Standard identified in part C. (Optional) A sample of such a license (or material licensing terms) that is substantially similar to what the Submitter would offer is attached.

(Optional)	Such	a	license	will	include	a	Reciprocal	Licensing	requirement.

b. The Submitter will <a href="make-available">grantmake available</a> a license for <a href="make-available">for Essential Patent Claims</a> under <a href="make-available">reasonable Rates</a> to an unrestricted number of <a href="mapple:applicants">applicants</a> on a worldwide basis with <a href="make-available-other-reasonable">other</a> reasonable terms and conditions that are demonstrably free of unfair discrimination to <a href="make-available-other-nates">make-available</a> to an unrestricted number of <a href="mapple:applicants">applicants</a> on a worldwide basis with <a href="make-available-other-nates">other-nates</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> a license for <a href="make-available-other-nates">applicants</a> on a worldwide basis with <a href="make-available-other-nates">other-nates</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> a license for <a href="make-available-other-nates">other-nates</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> a license for <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrably free of unfair discrimination <a href="make-available-other-nates">to make-available</a> and conditions that are demonstrable in the first of the state
Optional) These reasonable rates will not exceed (e.g., percent of productunit price, flat fee, per unit).
Optional) A sample of such a license (or material licensing terms) that is substantially similar to what the Submitter would offer is attached.
Optional) Such a license will include a Reciprocal Licensing requirement.
c. The Submitter without conditions will not enforce any present or future Essential Patent Claims against any person or entity making, <a href="https://having.made.com/having.net/">having made.com/having.net/</a> , using, selling, offering to sell, or importing distributing, or implementing such a compliant implementation any Compliant Implementation that practices the Essential Patent Claims for use in conforming with the IEEE Standard identified in part C.
d. The Submitter is unwilling or unable to grant licenses according to the provisions of either a or be above or to agree that it will not enforce its Essential Patent Claims as described in c above.
2. After a Reasonable and Good Faith Inquiry, the Submitter is not aware of any Patent Claims that the Submitter may own, control, or have the ability to license that might be or become Essential Patent Claims.
E. SCOPE OF ASSURANCE:
Note: The Submitter must complete this section if box 1 in part D above is checked.
The Submitter may, but is not required to, identify one or more of its Patent Claims that it believes might be or become Essential Patent Claims. (Submitter must check box 1 or box 2 below)
1. When checked, this Letter of Assurance only applies to the Patent Claims identified below that are or become Essential Patent Claims. (If no Patent Claim is identified below, then this Letter of Assurance applies to all Essential Patent Claims supported by the disclosure in the patent or patent applications listed below.)

http://standards.ieee.org/develop/policies/. The terms and definitions set forth in the IEEE-SA Patent Policy, IEEE-SA Standards Board Bylaws, and IEEE-SA Standards Board Operations Manual in effect as of the date of this Letter of Assurance are incorporated herein.

## **DEFINITIONS**

The following terms, when capitalized, have the following meanings:

"Accepted Letter of Assurance" and "Accepted LOA" shall mean a Letter of Assurance that the IEEE-SA has determined is complete in all material respects and has been posted to the IEEE-SA web site.

"Affiliate" shall mean an entity that directly or indirectly, through one or more intermediaries, controls the Submitter or Applicant, is controlled by the Submitter or Applicant, or is under common control with the Submitter or Applicant. For the purposes of this definition, the term "control" and its derivatives, with respect to for-profit entities, means the legal, beneficial or equitable ownership, directly or indirectly, of more than fifty percent (50%) of the capital stock (or other ownership interest, if not a corporation) of an entity ordinarily having voting rights. "Control" and its derivatives, with respect to nonprofit entities, means the power to elect or appoint more than fifty percent (50%) of the Board of Directors of an entity.

"Applicant" shall mean any prospective licensee for Essential Patent Claims. "Applicant" shall include all of its Affiliates.

"Blanket Letter of Assurance" shall mean a Letter of Assurance that applies to all Essential Patent Claims for which a Submitter may currently or in the future (except as otherwise provided for in these Bylaws and in the IEEE-SA Standards Board Operations Manual) have the ability to license.

"Compliant Implementation" shall mean any product (e.g., component, sub-assembly, or end-product) or service that conforms to any mandatory or optional portion of a normative clause of an IEEE Standard.

"Enabling Technology" shall mean any technology that may be necessary to make or use any product or portion thereof that complies with the [Proposed]-IEEE Standard but is neither explicitly required by nor expressly set forth in the [Proposed] IEEE Standard (e.g., semiconductor manufacturing technology, compiler technology, object-oriented technology, basic operating system technology, and the like).

"Essential Patent Claim" shall mean any Patent Claim the usepractice of which was necessary to create a compliant implementation of implement either a mandatory or optional portions of thea normative clausesclause of the [Proposed] IEEE Standard when, at the time of the [Proposed] IEEE Standard's approval, there was no commercially and technically feasible non-infringing alternative; implementation method for such mandatory or optional portion of the normative clause. An Essential Patent Claim does not include any Patent Claim that was essential only for Enabling Technology or any claim other than that set forth above even if contained in the same patent as the Essential Patent Claim.

"Letter of Assurance" and "LOA" shall mean a document, including any attachments, stating the Submitter's position regarding ownership, enforcement, or licensing of Essential Patent Claims for a specifically referenced IEEE Standard, submitted in a form acceptable to the IEEE-SA.

"Patent Claim(s)" shall mean one or more claims in issued patent(s) or pending patent application(s).

"Prohibitive Order" shall mean an interim or permanent injunction, exclusion order, or similar adjudicative directive that limits or prevents making, having made, using, selling, offering to sell, or importing a Compliant Implementation.

"Reasonable and Good Faith Inquiry" includes, but is not limited to, a Submitter using reasonable efforts to identify and contact those individuals who are from, employed by, or otherwise represent the Submitter and who are known to the Submitter to be current or past participants in the development process of the [Proposed] IEEE Standard identified in a Letter of Assurance, including, but not limited to, participation in a Sponsor Ballot or Working Group. If the Submitter did not or does not have any participants, then a Reasonable and Good Faith Inquiry may include, but is not limited to, the Submitter using reasonable efforts to contact individuals who are from, employed by, or represent the Submitter and who the Submitter believes are most likely to have knowledge about the technology covered by the [Proposed] IEEE Standard.

"Reasonable Rate" shall mean appropriate compensation to the patent holder for the practice of an Essential Patent Claim excluding the value, if any, resulting from the inclusion of that Essential Patent Claim's technology in the IEEE Standard. In addition, determination of such Reasonable Rates should include, but need not be limited to, the consideration of:

- The value that the functionality of the claimed invention or inventive feature within the Essential Patent Claim contributes to the value of the relevant functionality of the smallest saleable Compliant Implementation that practices the Essential Patent Claim.
- The value that the Essential Patent Claim contributes to the smallest saleable Compliant Implementation that practices that claim, in light of the value contributed by all Essential Patent Claims for the same IEEE Standard practiced in that Compliant Implementation.
- Existing licenses covering use of the Essential Patent Claim, where such licenses were not obtained under the explicit or implicit
  threat of a Prohibitive Order, and where the circumstances and resulting licenses are otherwise sufficiently comparable to the
  circumstances of the contemplated license.

"Reciprocal Licensing" shall mean that the Submitter of an LOA has conditioned its granting of a license for its Essential Patent Claims upon the Applicant's agreement to grant a license to the Submitter with Reasonable Rates and other reasonable licensing terms and conditions to the Applicant's Essential Patent Claims, if any, for the referenced IEEE Standard, including any amendments, corrigenda, editions, and revisions. If an LOA references an amendment or corrigendum, the scope of reciprocity includes the base IEEE Standard and its amendments, corrigenda, editions, and revisions.

"Statement of Encumbrance" shall mean a specific reference to an Accepted LOA or a general statement in the transfer or assignment agreement that the Patent Claim(s) being transferred or assigned are subject to any encumbrances that may exist as of the effective date of such agreement. An Accepted LOA is an encumbrance.

"Submitter" when used in reference to a Letter of Assurance shall mean an individual or an organization that provides a completed Letter of Assurance. A Submitter may or may not hold Essential Patent Claims. "Submitter" shall include all of its Affiliates unless specifically and permissibly excluded.

nould any discrepancy exist between the definitions above and the definitions in the IEEE-SA Standards Boo ylaws clause 6.1, the definitions contained in the Bylaws shall control.
