

Reinhausen Technical Tour

Thursday, November 5, 2015

Reinhausen Manufacturing Inc. cordially invites you to tour our Humboldt, Tennessee facility on Thursday afternoon, November 5, 2015. As the world's leading manufacturer of Load Tap Changers, we want you to come experience why we are so proud of our products and the people that help make it happen each and every day!

In the last two decades, our plant has undergone many changes and \$2.5M worth of upgrades to bring you what we have today. Not only have we doubled our physical size since opening over 25 years ago, but we have also implemented many state-of-the-art processes such as an automated motor drive production, new logistics and customized software to get our products more efficiently from our dock to yours. In 2014 alone, more than 1,000 LTCs were shipped from our facility!

Following the tour, a spectacular dinner will be served at the Opera House in downtown Humboldt. Mix and mingle to the music in this beautifully restored historic building while the food and drinks freely flow!

Tour and Dinner Schedule:

- 12:30 pm: Bus departs the Peabody (*new name badges and box lunches will be provided*)
- 2:30 pm: Arrive at Reinhausen Manufacturing in Humboldt; Tour begins
- 4:30 pm: Bus departs for dinner at the Opera House in Humboldt
- 4:45 pm: Entertainment and appetizers begin
- 5:15 pm: Dinner is served
- 6:30 pm: Bus departs for Peabody (*approx. return to Peabody at 8:30 pm*)

Space is limited, but EVERYONE —including spouses/companions— is invited!

You may register either online during your IEEE meeting registration or contact Christy Crawford at 731-562-4127 or c.crawford@us.reinhausen.com to reserve your spot.

*Please inform us of any special needs or dietary restrictions when you register for the meeting.
No cameras please.*
