Creative Explorations

Spend the morning exploring Dixon Gallery and Gardens, a fine art museum and 17-acre public garden (certified arboretum) located in the heart of Memphis. Tour the greenhouses and do not miss the most ambitious outdoor sculpture exhibition in Dixon history on view in the gardens with powerful ceramic sculptures by Jun Kaneko. www.dixon.org

Has the gourmet food truck craze hit where you live? Continue your explorations with a unique “meal on wheels” lunch experience. Indoor seating will be available. memphisfoodtruckers.org

After lunch, board the buses to continue your explorations of Memphis’ creative side at the National Ornamental Metal Museum. The Metal Museum is the only institution in the United States devoted exclusively to the art and craft of fine metalwork. Enjoy a blacksmith demonstration and create your own piece of metal artwork as a souvenir. Stroll through the outdoor sculpture garden and do not miss the magnificent view of the mighty Mississippi River. www.metalmuseum.org
