IEEE PES Transformers Committee
Liaison Report for General Session Meeting – October 28, 2019
Standards Coordinating Committee on Electrical Insulation – SCC 04

Standards Coordinating Committee 04 oversees development of standards for Electrical Insulation that span the scope of multiple Technical Committees and Societies (e.g., Dielectric and Electrical Insulation, and Power Engineering) within IEEE.

1. Scope:

- To formulate guiding principles for the evaluation of insulation materials and systems for electrical and electronic applications.
- To formulate principles for the identification of insulation materials and systems based on functional tests and/or experience.
- To coordinate the preparation of standards for functional test programs and diagnostic methods for the evaluation of insulation materials and systems.

2. Standards:

- **IEEE 1-2000 (R2011)** Recommended Practice – General Temperature Limits in the Rating of Electrical Equipment and for the Evaluation of Electrical Insulation
- **IEEE 98-2016** Standard for the Preparation of Test Procedures for the Thermal Evaluation of Solid Electrical Insulating Materials
- **IEEE 99-2008** Recommended Practice for the Preparation of Test Procedures for the Thermal Evaluation of Insulation Systems for Electrical Equipment

3. Current Activities:

- **IEEE 99** – PAR expires December 2020. Document submitted to RevCom on 8/9/2019, to be reviewed at the 11/6/2019 RevCom meeting.
- **IEEE 1** – Soliciting volunteers for review and revision of this standard which expires 12/31/21. Looking to start work on this document soon -- anyone?

For those interested in joining SCC04 or WG for revision of IEEE 1, please contact the Chairperson, Evanne Wang: evanne.wang@dupont.com, or Paulette Payne Powell: papayne@ieee.org

Respectfully submitted,
Evanne Wang
