

## 4.0 CHAIR'S REPORT – ED TENYENHUIS

### 4.1 IEEE PES TECHNICAL COUNCIL

The IEEE Power Energy Society (PES) Technical Council is composed of the Chairs of the PES Technical and Coordinating Committees plus the Chairs of Standing Committees reporting to it. The full organizational structure of the PES can be found on the PES website (<https://www.ieee-pes.org>). The PES Technical Committees report to the Technical Council on matters concerning membership, recognition, technical publications, scope, and the coordination of the Power Energy Society generated standards. The Technical Committees work directly with the IEEE-SA Standards Board and the PES Standards Coordinating Committees for standards relating to their respective technical scopes. For further details on the Statement of Purpose and Scope of Activities for the PES Technical Council please see the following website; [www.ieee-pes.org/statement-of-purpose-and-scope-of-activities-for-the-pes-technical-council](http://www.ieee-pes.org/statement-of-purpose-and-scope-of-activities-for-the-pes-technical-council) .

#### 4.1.1 Technical Council Officers & Members

The officers and members of the Technical Council are listed below for your reference.

##### TECHNICAL COUNCIL OFFICERS 2022-2023

Chair .....Hong Chen  
Vice Chair.....Diane Watkins  
Secretary .....Jim McBride  
Past Chair.....Vijay Vittal

##### TECHNICAL COMMITTEES

##### Chair

Analytic Methods for Power Systems Committee .....Kwok Cheung  
Electric Machinery Committee .....Jim Lau  
Energy Development and Power Generation Committee .....Robert Thornton-Jones  
Energy Storage and Stationary Battery Committee .....Babu Chalamala  
Insulated Conductors Committee .....Yingli Wen  
Nuclear Power Engineering Committee .....John White  
Power System Communications and Cybersecurity Committee .....Craig Preuss  
Power System Dynamic Performance Committee .....Leonardo Lima  
Power System Instrumentation and Measurements Committee .....Ernst Haniue  
Power System Operation, Planning and Economics Committee .....Jianhui Wang  
Power System Relaying and Control Committee .....Murty Yalla  
Smart Buildings, Loads and Customer Systems .....Johanna Mathiue  
Substations Committee .....Patrick Fitzgerald  
Surge Protective Devices Committee .....Steven Hensley  
Switchgear Committee .....Keith Flowers  
Transformers Committee .....Ed teNyenhuis  
Transmission and Distribution Committee .....Surya Santoso

##### COORDINATING COMMITTEES

##### Chair

Energy Internet Coordinating Committee .....Hongbin Sun  
Intelligent Grid and Emerging Technologies Coordinating Committee Jim Follum  
Marine Systems Coordinating Committee .....Dwight Alexander  
Renewable Systems Integration Coordinating Committee .....Yingchen Zhang

## STANDING COMMITTEES

## Chair

Awards Committee .....	Vijay Vittal
Organization & Procedures Committee .....	Jim McBride
Power and Energy Education Committee .....	Siddharth Suryanarayanan
Standards Coordination Committee .....	Todd Irwin
Technical Sessions Committee .....	Diane Watkins
Entity Proposal Management Committee .....	Vijay Vittal

### 4.1.2 PES Technical Council Activities

Upcoming Technical Council meetings include the following:

- November 18-19, 2022, Orlando FL – Technical Council Retreat
- January 8-9, 2023, Jacksonville, FL – Joint Technical Council Meeting
- July 16-20, 2023, Orlando FL, PES General Meeting

### 4.1.3 memberplanet

IEEE PES awarded a contract in 2021 to *memberplanet* for committee membership management. The new system is delayed and unfortunately will not be ready for our Fall 2022 meeting. Greg Anderson and Jim McBride are involved in the regular update meetings with the contractor and will help ensure the system will have all the tools needed for our committee. IEEE PES is covering the development cost and will cover the cost of the future annual contract for the memberplanet tool (except for pass-through charges for event registration such as credit card transaction fees).

For this Fall 2022 meeting, activity leaders are requested to continue to use their own mailing lists and meeting rosters.

All activity leaders - please also send any email bounce backs (or email updates) to Greg Anderson at [gwanderson@ieee.org](mailto:gwanderson@ieee.org) so that he can investigate and update the membership database so it will be current for when memberplanet is ready.

### 4.1.4 Working Group Chair Fundamentals

IEEE PES has implemented a mandatory web training for all working group Chairs to be completed in 2022. New working group leaders will be notified of this requirement when they are registered in IEEE-SA.

## 4.2 TRANSFORMERS COMMITTEE ACTIVITIES

### 4.2.1 Spring 2022 Denver Meeting

Our Spring 2022 Transformer Committee meeting in Denver was a great success and was our first in person meeting since 2019. We unfortunately were short on our contractual hotel rooms commitment which initially resulted in penalties with the hotel. However, we were able to negotiate out of these penalties by agreeing to hold a future meeting at this hotel in 2025.

This is a reminder to please book your stay at the meeting hotel. The larger hotel room block the committee can commit to causes the meeting room cost to be lower (and thus the meeting registration price to be lower).

### 4.2.2 Committee Schedule

The location and dates of future committee meetings that are currently planned are as follows:

Fall 2022	Charlotte, NC	October 16-20, 2022
Spring 2023	Milwaukee, WI	March 19-23, 2023
Fall 2023	Kansas City, MO	October 22–26, 2023
Spring 2024	TBA	
Fall 2024	TBA	

Check the Committee website ([www.transformerscommittee.org](http://www.transformerscommittee.org)) regularly for information on upcoming meetings.

#### **4.2.3 WebEx Accounts for Standard Development and Virtual Meeting Notification**

To support remote technical meetings the IEEE-SA has made available WebEx accounts for use by volunteers involved in standards development activities. Activity leaders are free to use any other web service available to them, but the IEEE-SA WebEx service is available for those who do not have access to a suitable tool.

Activity leaders are reminded to track attendance at each virtual meeting and to record attendance in the minutes of those meetings just as they would for an in-person meeting. To maintain the openness of our meetings, activity leaders are encouraged to use the Transformers Committee website to post notifications of any meetings that occur outside the spring and fall main meetings, thereby allowing any interested party the opportunity to participate. Website notifications can be made by providing the Committee Webmaster the pertinent meeting information.

#### **4.2.4 Avoiding PAR Extensions**

Working Group Chairs should pay close attention to the progress of their documents and to strive to complete their assignment(s) within the standard 4-year life of the PAR. To do so, WG Chairs should be careful to avoid scope creep and plan to complete the substantial work on the document in about 3 years to allow sufficient time for the balloting and comment resolution processes.

#### **4.2.5 Meeting App**

We will continue to use the IEEE EventHub App for our meetings.

#### **4.2.6 Association Management System (AMS) Records**

Per above, there will not be an AMS tool in place for the Fall 2022 meeting. All activity leaders will need to use the previous 123Signup downloads to create rosters, email list servers, track membership and record meeting attendance.

These files are confidential and shall be maintained in a manner that protects the privacy of the participant information. Only the activity officers should have these files. If activity download files are needed for reason, Bruce Forsythe can be contacted to provide this.

#### **4.2.7 Officer's Travel for Committee Required Business**

There is travel required by the Officers for IEEE PES Technical Committee work. The Officers have discussed and approved that all relevant and reasonable travel costs for extra meetings that Officers are required to attend shall be reimbursable by the Transformers Committee. Below are the scheduled meetings for 2022 and 2023:

Chair: 2 meetings per year

1. JTCM in January for Technical Council meeting
2. General Meeting in July for Technical Council meeting and O&P Committee
3. Technical Council November Retreat (not included since IEEE PES pays for this trip)

Vice-Chair: 2 meetings in 2022 and 2 meetings in 2023

1. 2022 T&D Expo for Paper/Poster Session, and any Panel Sessions
2. 2022 General Meeting in July for Technical Sessions meeting
3. 2023 JTCM in January for Technical Sessions meeting
4. 2023 General Meeting in July for Technical Sessions meeting

Secretary: 1 meeting in 2023

1. GM in July for Technical Sessions meeting for training purposes

Typical business expenses will be covered including air, hotel, meals, mileage, parking, taxi/car, baggage fees, tolls, other. The Treasurer will budget accordingly, for 5-6 meetings per year (and include meeting registration fees, as appropriate).

#### 4.2.8 Website Password Usage

The website password is not for public dissemination. It is for use by our meeting attendees (CM, AP, II) and associated work of the Transformers Committee. Access to the protected information on the Committee website is a benefit of attendance and participation. It may be used by meeting attendees and within attendees' immediate workplace, but not beyond that. A new password is implemented immediately after each fall meeting with an announcement made to share the new password during the closing session.

#### 4.2.9 IEEE Copyright Policy

<https://standards.ieee.org/ipr/index.html>

The Transformers Committee has an obligation comply with the IEEE Copyright Policy and thereby respect and protect the rights of copyright holders by preventing the inappropriate use of material protected by copyright laws.

Compliance with the Copyright Policy requires a certain amount of due diligence on the part of activity leaders, but it is not a daunting task. To assist activity leaders, a webinar was presented on October 5, 2020, that discussed the application of the Copyright Policy during Transformer Committee standards development processes. The presentation is available on the Committee website for those interested in further information.

#### 4.2.10 Call for Patents (Essential Patent Claims)

<https://standards.ieee.org/about/sasb/patcom/patc.html>

A call for patents is required at every Working Group (WG) meeting. This is a reminder to all WG leaders to call for patents and record the results in the meeting minutes. Note it is not required to show the patent slides; it is only necessary to call for patents and record the response in the minutes. If there is a claim reported, the WG chair shall include in the minutes the name & affiliation of the individual asserting a patent claim. Here is what each WG Chair should ask at the beginning of each WG meeting. This applies only to WG's after the PAR is approved by the IEEE-SA Standards Board.

**“If anyone in this meeting is aware of any patent claims that are potentially essential to implementation of the document under consideration by this WG, that fact should be made known to the WG and recorded in the meeting minutes.”**

There should be no discussion of any patent claim identified, only that it be identified and recorded. Even if no patent claims are identified, the minutes are to indicate that the call for patents was made.

If a patent holder or patent applicant is identified, then the WG Chair (or designee) should ask the patent holder or patent applicant of a patent claim that might be or become an Essential Patent Claim to complete and submit a Letter of Assurance in accordance with Clause 6 of the IEEE-SA Standards Board Bylaws.

#### 4.2.11 Letters of Assurance

A Letter of Assurance (LoA) is a document submitted to IEEE-SA by a patent holder which documents the submitter's position with regards to ownership, enforcement, or licensing of an Essential Patent Claim that may be incorporated into a specific IEEE document. Table 1 lists 19 Letters of Assurance that pertain to our committee as of Sept 21, 2022 – there are 2 new LoA's marked in yellow. This listing can be found at <https://standards.ieee.org/about/sasb/patcom/patents/>.

**Table 1: Letters of Assurance**

Std No.	Patent Owner	Contact for License	Patent Serial No. (if indicated)	Letter Date	Licensing Assurance Received	Date record entered or revised (if known)
