

# IEEE Power Engineering Society Transformers Committee Meeting

John Estey  
PES President

March 18, 2003  
Raleigh, North Carolina

# Suggested Topics

- Employer Support
- New Meetings Format
- Standards Strategy for the Future
- IEEE-NEMA MOU
- Effectiveness of Standards Work
- Relationship with IEEE Standards Folks

# Suggested Topics

- Employer Support
- New Meetings Format
- Standards Strategy for the Future
- IEEE-NEMA MOU
- Effectiveness of Standards Work
- Relationship with IEEE Standards Folks

Our Overall Objective:

**Improve service to our members**

# Topics Related to 2003 PES Goals

- Enhance employer support
  - Focus Groups with industry executives
  - What's in it for Me? brochure
  - PES Annual Report
  - Power Systems Basics for Business Professionals
  - Direct interaction with industry executives
  - Involvement of more utility executives in PES
  - Providing “soft skills” training to members

# Topics Related to 2003 PES Goals

- Enhance employer support
- Continue to implement new meetings structure
- Develop new standards vision
- Increase membership among
  - Graduates of Last Decade (GOLD)
  - Emerging industry segments
- Develop realistic balanced budget for 2004

# Other Suggested Topics

- IEEE-NEMA Memorandum of Understanding

# IEEE- NEMA MOU

## Historical Division of Work

### NEMA

- Dimensions
- Preferred rating values
- Test procedures (conformance tests)
- Standard settings
- Construction/manufacturing standards
- Installation/maintenance guides

### IEEE

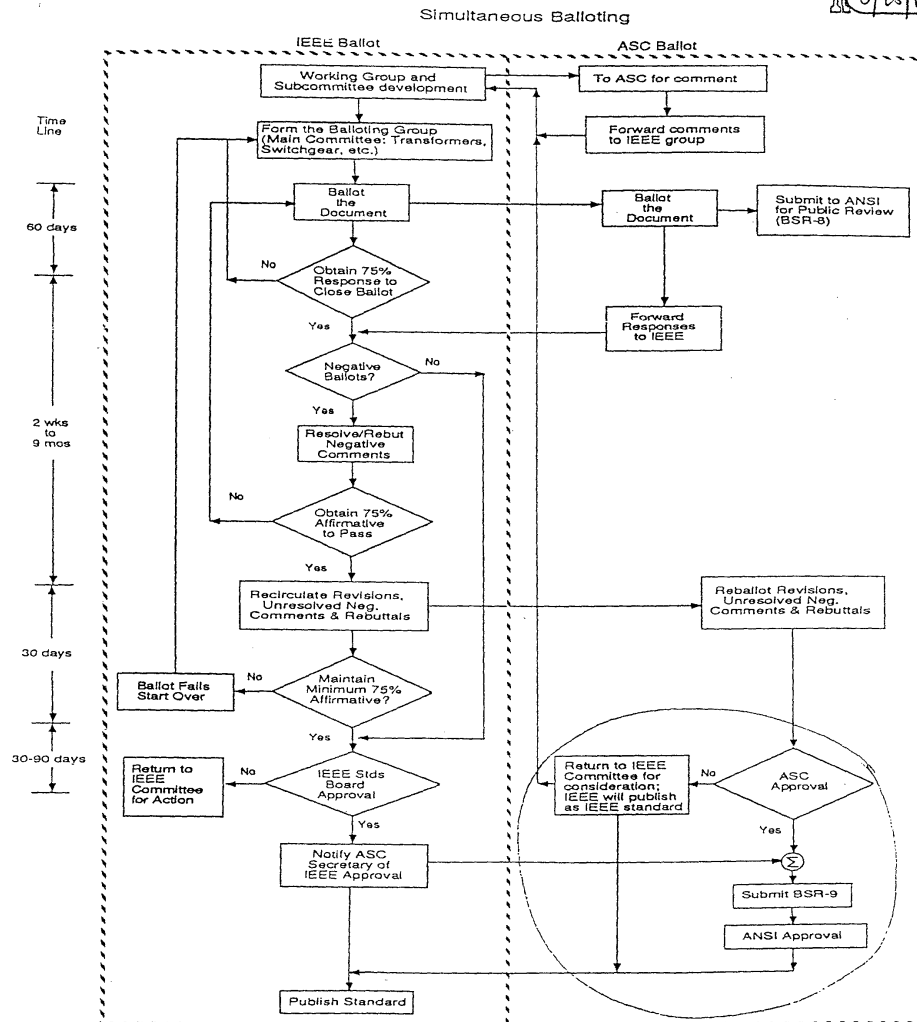

- Definitions
- Service conditions
- Temperature limits
- Performance requirements
- Test procedures (design & production tests)
- Acceptance criteria for tests
- Guide to specifications
- Power circuit breaker control schemes

# “Historical Process”

5 28 93

Note: Processes differ somewhat between the committees

# Other Suggested Topics

- IEEE-NEMA Memorandum of Understanding
- Efficiency of standards work
- Relationship with IEEE Standards Folks
